

Compact Personal Folding Inspection / Search Mirror with LED Illuminators

This compact, lightweight folding pocket inspection mirror features 3 built-in high power LED illuminators and weighs in at just 190 gms including batteries.

The generous 85mm diameter round mirror is big enough to be practical for inspecting larger areas, while being small enough to allow the unit to fold compactly to slip into your pocket.

The telescopic stainless steel handle extends to a comfortable 750mm, preventing the need to stoop to inspect the underside of your vehicle or other areas to be searched or viewed.

The double ball joint attachment allows infinite angle adjustment of the mirror for easy viewing.

The 3 LED lights illuminate even the darkest corners so you don't miss anything during your inspection.

Product Order Code: **SM CMHT2RL**
