

# Vanguard - the All-Round Anti Climb Barrier

With an ever increasing threat of crime and vandalism, protecting your property from theft and serious damage is a priority for businesses & organisations everywhere.

Vanguard delivers a practical and effective solution. It's, a very difficult to negotiate anti scale barrier, yet poses minimal risk of impalement to would be intruders.

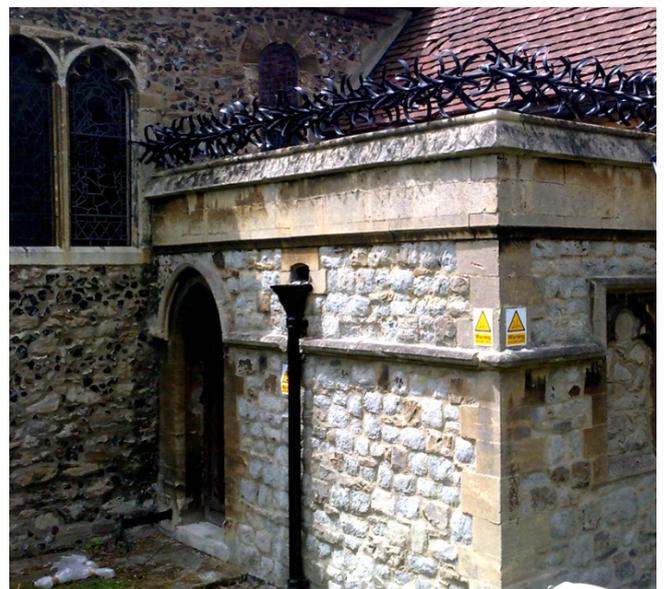

## Versatile and easy to install almost anywhere!

Vanguard anti climb barrier can be supplied with brackets suitable for fixing above any type of fence, gate or wall, or to a building fascia. This makes it easy to protect your vulnerable points, from perimeter walls and fences, to flat roofs or even scaffolding, pipework or bridges.

From luxury hotels to shopping malls, goods delivery yards and historic buildings, you'll find thousands of Vanguard installations around the UK, and where blending in with the surrounding environment is important, it can be supplied with a durable baked on paint finish as shown on this ancient church (dark green and black are popular options).

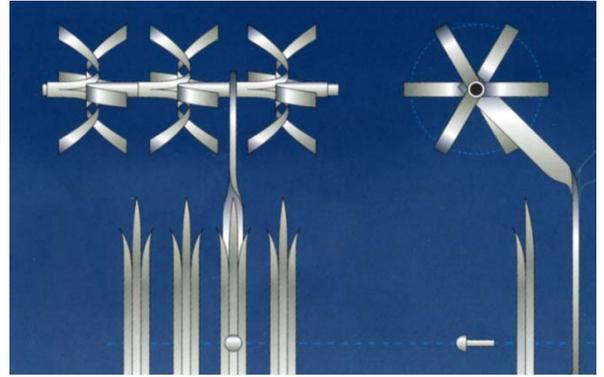

## Security that's designed to last

Heavy duty galvanised steel brackets and ripped aluminium rotating anti climb vanes ensure that your maintenance free Vanguard will offer you years of reliable service.

## Examples of some typical installations:

Installed above a Palisade Fence

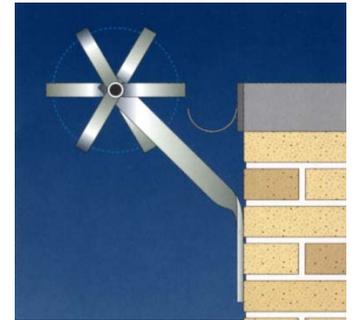

A popular solution to trackside security, Vanguard is also used extensively at;

- Retail parks
- Goods delivery areas
- Power generation stations (see left) ...and lots more

Installed above a wall

Installed beneath a guttering
